## Education

### Pandit Deendayal Energy University

Bachelor of Technology in Computer Engineering (CGPA: 9.27 / 10.00)

Expected May 2026

Gandhinagar, Gujarat

## Experience

### Thinkbyte.ai

Tech Intern (Bubble.io, Next.js, Python, AWS)

December 2024 - Present

Bengaluru

- Perform various small tasks, including integrations, creating agents, and building data pipelines.
- Work with no-code platforms like Bubble to develop functional web applications.
- Contribute to real-world projects using Next.js and collaborate on backend integrations.

### Infolanze

Front-end Developer (React, Tailwind CSS)

January 2024

Ahmedabad, Gujarat

- Developed a visually appealing and fully responsive landing page for ShreyaWaterTechLLP using React and Tailwind CSS.
- Optimized the page for fast loading, ensuring smooth user experience across all devices.
- [www.shreyawatertech.in](http://www.shreyawatertech.in)

### TechVantage

Web Designer (Figma)

December 2023

Ahmedabad, Gujarat

- Designed an E-commerce website for a shop specializing in magic products using Figma for a seamless user experience across mobile and desktop platforms.

## Projects

### Wanderlust Chronicles | [React.js](#), [Node.js](#), [MongoDB](#), [TailwindCSS](#)

[GitHub Code](#)

- Developed a MERN-based Travel Blogging website, inviting adventurers to share their experiences and discover hidden treasures, fostering a vibrant community of explorers.
- Used MongoDB, Express.js, React.js, and Node.js to create a user-friendly interface, enabling seamless content sharing, interactive features, and personalized user engagement.

### Trip Discover | [React.js](#), [TailwindCSS](#), [Node.js](#), [MySQL](#)

[Github Code](#)

- Constructed a platform for discovering new destinations and organizing travel itineraries.
- Used React.js and Tailwind CSS for the front-end and MySQL and Node.js for the backend.

## Technical Skills

**Programming Languages:** Python, C++, JavaScript

**Frameworks and Libraries:** React.js, TailwindCSS, Express.js, Node.js, FastAPI

**Development Tools:** Git, Github

**Web Technologies:** HTML, CSS

**Designing Tools:** Figma

**Database:** MongoDB, MySQL

**Operating System:** Linux, Windows

**Security Tools:** Burp Suite, sqlmap, nmap, wireshark

**Concepts:** Software Project Management, Data Structures and Algorithms, Operating Systems, Theory of Computations, Design and analysis of Algorithm, Cryptography, Network Security, Computer Networks
